

## Alarmed Window Bar for *smaller* windows

### Fire safe, easy to remove

- Protects a window(s) up to 60" (150cm) wide & 14" (35cm) high. Fits most basement windows\*
- Protects both sides of a sliding window whether open or closed.
- Window can be opened and closed normally.
- The home alarm system is activated if an intruder dislodges the bar.
- Works with any alarm system wired or wireless.
- Uses proven magnetic technology (switch & magnet included).
- Can be installed horizontally *or* vertically.
- Provides a visual deterrent from outside the home *and* will trigger an alarm if dislodged.
- Easy to remove in an emergency or for window cleaning.
- Made of strong extruded Aluminium Alloy. Colour White.
- \*Other sizes available for larger windows. (See other side of this page).

**Protects your family 24 hours a day!**
